SEA BOX Containers

SEA BOX is a world leader in container design, custom modification and manufacturing. Our containers are used by all branches of the military and commercial customers throughout the world.

We now offer enhanced containers that feature removable storage modules. These drawer and shelf modules provide a way to effectively use containers for the transport and storage of small, medium and large sized parts, tools, supplies and other materials that may be needed in the field.

Storage modules are secured in the containers with adaptor plates and can be used in Quadcons, Tricons, Bicons and 20' ISO.

Selecting the Container and Removable Storage Modules That is Right for Your Needs

- **STEP 1:** Select the enhanced container size that fits your storage and transportation needs
 - Choose Quadcon, Tricon, Bicon, or 20' ISO Containers
- **STEP 2:** Decide if you need Removable Storage Modules on one or both sides of your container. Selecting a Module for just one side allows for bulk items to be stored in the same container. Selecting Modules for both sides maximizes storage of small, medium and large items, parts or supplies.

Selecting the Container and Removable Storage Modules That is Right for Your Needs

- **STEP 3:** Evaluate the items, parts or supplies that will be stored and transported to determine the correct type of Removable Storage Modules.
 - Small and medium sized items (tools, medical supplies, small replacement parts, etc.) will be stored and transported best in Drawer Modules
 - Larger items (batteries, engines, etc.) will be stored and transported best in Glide Out Shelving Modules

Selecting the Container and Removable Storage Modules That is Right for Your Needs

- **STEP 4:** Select your storage modules and build your enhanced container system!

Modules are available in the following sizes to match the container size and number of adaptor plates you've selected:

- Quadcon size (fits in Quadcons or Bicons). Select one module per adaptor plate.
- Tricon Half-Width size (fits Tricons and 20' ISO containers). Select two modules per adaptor plate.
- Tricon Full-Width size (fits Tricons and 20' ISO containers). These are Glide Out Shelving Modules. Select one per adaptor plate.

You can build your enhanced containers with variety of modules to accommodate all sized items!

QUADCON & BICON ENHANCED CONTAINERS AND STORAGE MODULES

Quadcon Containers with Adaptor Plates on One or Both Sides

Adaptor Plate Mounted on One Side Accepts any Quadcon Size Storage Module

P/N: [SB812.ST.APQ1.DLA](#) NSN: 8145-01-620-6903

P/N: [SB812.SG.APQ1.DLA](#) NSN: 8145-01-620-6858

Adaptor Plate Mounted on Both Side Accepts any Two Quadcon Size Storage Modules

P/N: [SB812.ST.APQ2.DLA](#) NSN: 8145-01-620-6925

P/N: [SB812.SG.APQ2.DLA](#) NSN: 8145-01-620-6873

- Patented adaptor plate systems on one or both sides provide a method to mount a full array of SEA BOX's Removable Storage Modules
- Container and adaptor plate available in Standard Tan or Standard Green

Quadcon Container with Double Cargo Doors on One Side and Roll Door on One Side Adaptor Plates Mounted in Center

Center-Mounted Adaptor Plate Accepts any Quadcon Size Storage Module

P/N: [SB812.ST.RD.APQ1.DLA](#)

NSN: 8145-01-623-4841

P/N: [SB812.SG.RD.APQ1.DLA](#)

NSN: 8145-01-623-4590

- Provides the standard features of double cargo doors with the added benefits of a roll back door on one side for easy access to materials in storage modules
- Roll back door is lightweight aluminum and spring counter balanced for easy lifting
- Door is fully gasket lined for water resistance

Bicon Containers with Double Doors on Both 10' Sides and Adaptor Plates

**Two Adaptor Plates Mounted on One Side
Accepts any Two Quadcon Size Storage Module**

P/N: [SB844.0.ST.APQ2.DLA](#) NSN: 8145-01-620-7145
P/N: [SB844.0.SG.APQ2.DLA](#) NSN: 8145-01-620-6973

**Two Adaptor Plates Mounted on Both Sides
Accepts any Four Quadcon Size Storage Module**

P/N: [SB844.0.ST.APQ4.DLA](#) NSN: 8145-01-620-7177
P/N: [SB844.0.SG.APQ4.DLA](#) NSN: 8145-01-620-7008

- Patented adaptor plate systems on one or both sides provides a method to mount a full array of Sea Box's Removable Storage Modules
- Bicon Containers can hold two or four Quadcon-size Removable Storage Modules
- Container and adaptor plate available in Standard Tan or Standard Green

Quadcon Sized Full Width Adaptor Plates

Adaptor Plate Accepts any Quadcon Storage Module

P/N: [SB3453.APQ.DLA](#) NSN: 8150-01-620-3892

- Patented adaptor plate which mounts into a standard Quadcon (sold separately P/N SB812.0) and provides a method to mount a full array of SEA BOX's Removable Storage Modules
- Adaptor Plate allows Removable Modules to be easily loaded, unloaded, and moved via forklift
- Plate features foolproof locking system which ensures that the doors of the container cannot be closed until the shot bolt mechanism is engaged correctly into the Removable Module
- Adaptor plate incorporates location and guide features to ensure that the Removable Module is in the correct position for transportation, eliminating the need for blocking and bracing
- In a matter of minutes, the Removable Modules are loaded, locked down and the container doors closed and ready for quick, product-safe deployment

Quadcon Drawer Modules

- Removable and transportable unit designed for efficient storage and transport of small and medium sized parts, tools, supplies and other materials that may be needed in the field
- Module with forklift pockets fits inside one half side of a standard ISO Quadcon with Adaptor Plate (P/N: [SB812.0.ST.APQ1.DLA](#))
- Module can be loaded into a container by a forklift and securely locked to the floor via adaptor plate for transport
- Module is easily removed from container and can be utilized in workshops, stores, maintenance shops or a warehouse on a daily basis, then replenished or re-set and returned to the container where it is securely locked down and ready for deployment.
- Fitted with full-height "Lockable Gates" used to lock drawers and shelves during deployment and to improve theft and pilferage protection while in transport mode and at point of use
- Module has a two point lock down security system
- Low profile base for maximum storage capacity
- Three Year Warranty

Quadcon Drawer Modules

- All drawers have 350 lb capacity and are 43" wide. All drawers include partitioning kits which can be repositioned to adjust to load requirements
- Drawers are mounted on rails with the patented SuperGlide 500 which is a self-lubricating, self-cleaning system that is resistant to dust, rust, sand and dirt
- SuperGlide 500 system is long-lasting and virtually maintenance-free because it has no rotating parts that could wear out over time
- Drawers extend out 100% for easy access to all stored items

****Modules 1 & 4 can be adjusted to fit inside the Roll-Door side of a Quadcon by removing one 4.7" drawer.
 Modules 2 & 3 can be adjusted by removing Slide-Out Bulk Tray***

Quadcon Glide-Out Modules

- Removable and transportable unit designed for efficient storage and transport of medium and large sized parts, tools or supplies
- Each shelf extends out 70%, has a 2,250lbs capacity, and includes a cargo net.
- When the shelf is fully retracted into the Glide-Out slide it is automatically restrained in all directions.
- Glide-Out Shelves can be repositioned and reconfigured as mission demands change.
- Half-Width Module with forklift pockets fits inside one full side of a standard ISO Quadcon with Adaptor Plate (P/N: [SB812.0.ST.APQ1.DLA](#))
- Fitted with full-height "Lockable Gates" used to lock shelves during deployment
- Low profile base for maximum storage capacity

- 20' ISO containers with Palletized Load System (PLS) provide the maximum amount of storage and transport space for small, medium, and large items!

Tricon Sized Full or Half Width Adaptor Plates

Full -Width Adaptor Plate Accepts any One Full-Width Storage Module or any Two Half-Width Storage Modules

P/N: [SB3453.FAPT.DLA](#) NSN: 8145-01-618-6819

Half -Width Adaptor Plate Accepts any One Half-Width Storage Module

P/N: [SB3453.HAPT.DLA](#) NSN: 8145-01-618-6821

- Patented adaptor plate which mounts into a standard Tricon Type II (sold separately P/N: SB822.0) and provides a method to mount a full array of SEA BOX's Removable Storage Modules
- Adaptor Plate allows Removable Modules to be easily loaded, unloaded, and moved via forklift
- Plate features foolproof locking system which ensures that the doors of the container cannot be closed until the shot bolt mechanism is engaged correctly into the Removable Module
- Adaptor plate incorporates location and guide features to ensure that the Removable Module is in the correct position for transportation, eliminating the need for blocking and bracing
- In a matter of minutes, the Removable Modules are loaded, locked down and the container doors closed and ready for quick, product-safe deployment

Tricon Half-Width Drawer Modules

- Removable and transportable unit designed for efficient storage and transport of small and medium sized parts
- Half-Width Module with forklift pockets fits inside one half side of a standard ISO Tricon with Adaptor Plate (P/N: [SB822.0.ST.FAPT1.DLA](#)) or 20ft Container with Adaptor Plate (P/N# SB892.6 series)
- Module can be loaded into a container by a forklift and securely locked to the floor via adaptor plate for transport
- Module is easily removed from container and can be utilized in workshops, stores, maintenance shops or a warehouse on a daily basis, then replenished or re-set and returned to the container where it is securely locked down and ready for deployment.
- Fitted with full-height "Lockable Gates" used to lock drawers and shelves during deployment and to improve theft and pilferage protection while in transport mode and at point of use
- Module has a two point lock down security system
- Low profile base for maximum storage capacity
- Three Year Warranty

Tricon Half-Width Drawer Modules

- All drawers have 500 lb capacity and include partitioning kits which can be repositioned to adjust to load requirements
- Drawers are mounted on rails with the patented SuperGlide 500 which is a self-lubricating, self-cleaning system that is resistant to dust, rust, sand and dirt
- SuperGlide 500 system is long-lasting and virtually maintenance-free because it has no rotating parts that could wear out over time
- Drawers extend out 100% for easy access to all stored items

Tricon Half-Width StackaBox™ Modules

- All StackaBoxes have weatherproof, lockable lids which are self-supporting with gas struts and can withstand wind gusts up to 40mph
- StackaBoxes have a 250 lb capacity and include partitioning kits which can be repositioned to adjust to load requirements
- All StackaBoxes have handles to allow for easy removal and manual transport
- StackaBoxes securely lock into the SuperGlide 500 rail system, which is a patented, self-lubricating, self-cleaning system that is resistant to dust, rust, sand and dirt
- SuperGlide 500 rail system has no rotating parts which could wear over time making it long-lasting and virtually maintenance-free

Tricon Half-Width StackaBox™ Modules

StackaBox Module 1

P/N: [SB3453.THSU-1.DLA](#)

NSN: 8145-01-618-7519

Module includes: (3) 11.2" H StackaBoxes, (2) 4.7" H StackaBoxes, and (1) Slide-Out Bulk Tray with net.

StackaBox Module 2

P/N: [SB3453.THSU-2.DLA](#)

NSN: 8145-01-618-7524

Module includes: (9) 4.7" H StackaBoxes and (1) Slide-Out Bulk Tray with net.

StackaBox Module 3

P/N: [SB3453.THSU-3.DLA](#)

NSN: 8145-01-618-7530

Module includes: (8) 4.7" H StackaBoxes and (2) 8" H StackaBoxes.

StackaBox Module 4

P/N: [SB3453.THSU-4.DLA](#)

NSN: 8145-01-618-7533

Module includes: 6) 4.7"H StackaBoxes, (2) 14.5"H StackaBoxes.

StackaBox Module 5

P/N: [SB3453.THSU-5.DLA](#)

NSN: 8145-01-618-7536

Module includes: (1) 17.5"H StackaBox, (1) 14.5"H StackaBox, (2) 11.2"H StackaBoxes, (1) 8"H StackaBox

StackaBox Module 6

P/N: [SB3453.THSU-6.DLA](#)

NSN: 8145-01-618-7702

Module includes: (4) 14.5"H StackaBoxes, (1) 4.7"H StackaBox.

StackaBox Module 7

P/N: [SB3453.THSU-7.DLA](#)

NSN: 8145-01-618-7708

Module includes: (2) 17.5"H StackaBoxes, (2) 14.5"H StackaBoxes.

Tricon Full-Width Glide-Out Modules

- Removable and transportable unit designed for efficient storage and transport of medium and large sized parts, tools, or supplies
- Each shelf extends out 70%, has a 2,250lbs capacity, and includes a cargo net.
- When the shelf is fully retracted into the Glide-Out slide it is automatically restrained in all directions.
- Glide-Out Shelves can be repositioned and reconfigured as mission demands change.
- Half-Width Module with forklift pockets fits inside one full side of a standard ISO Tricon with Adaptor Plate (P/N [SB822.0.ST.FAPT1.DLA](#))
- Fitted with full-height "Lockable Gates" used to lock shelves during deployment
- Low profile base for maximum storage capacity

Tricon Full-Width Glide-Out Modules

Glide-Out Module 1

P/N: [SB3453.TFGO-1.DLA](#)
