

## 40ft Domino Type (9) flat walls folding onto floor

The unit has flat panelled end walls which lie directly on the top of the floor and which can then support point loads as a platform flat. There are no recesses in the base so the deck is clean and clear. Five units fold into 9ft6in. This is one of 20 patent designs exclusive to CSA licensees.

The end wall can be removable for vehicle loading and may be used as a loading ramp for tyred vehicles up to 1.5 tonne axle load.
